Tarrington told me Ozon was made by combining
 H_2SO_4 + permang of potass. Had also works a good deal, but
it loses it after a while.

Salt

The mineral King seems to be applicable to Organic Changes
Next, for paralytic & many changes. Think when Org changes,
Vegetable King more in functional changes.

Substances that Crystallize the same have a corresponding
similarity in action,

some substances are pos. some neg. some even neutral.
All metals that are Electro Neg. act on body from
below upwards during day. Electro pos. the opposite.
this does not apply to all minerals, for some are neutral.

There are inimical relations also among minerals
for examples Sil^{vs} Merc. also Const^{vs} phos.

also between the Kingdoms China, ^{iron} Salts,

(Noto Musc. Cichidehi for human Const. also Indigo for
Iodine there are also very delicate tests for these salts.)

Pell. plant. Equivalents where there is lime in the soil viz
Pell. & Calc Carb.

Cirrus Com. & Mica soil. Pals - Moque Rocks,

Mushroom won't grow where there is Iron or Carbon.

* Sulphur Does lack of action medicines however well
Current doesn't act. Sul is given to improve the Constitution
(Linn's Kennedy, Grammel). Sul is good in every known disease
where the soil is poisoned. Acts on Sympathetic Nervous Syst.
not like Acon, on Centers but on those parts which Control
Capil Circulation, hence all the changes of nutrition.
If skin grows a good many skin diseases are due to
nervous motor disturbances,

Patient walks stoops, slumbers in habits, Coarse skin
rough and dry. Freckled face, Coarse red hair and beard.
has a peculiar smell, fond of Beer but does not like
wine, has little or no appetite, but much thirst, hates
washing, can't drink milk, Sulphur to piles Constipated.

Compliments of Sul Acon. Acon very important,
CalcC. good after Sul, when after Sul the pupils dilate give
CalcC. When Sul removes cold feet and Cold damp
feet between CalcC.

Puls is best given after, HypC. Abdominal Symptoms
more for Sul and ~~Morac~~ if more Sul have been
used together give Const

Sub. Hypochon, greenish, irritable, restless, quick,
Quick action, Cold has reverse slow, lazy. Religious
speculations anxiously about one's Salvation. Dullness
of thought forgetful forgets the crowd he was going
to also in speaking so.

Variety (Congestion) bleeding of nose, worse after dinner,
and when rising from bed. Congest of blood to brain,
throbbing deep in brain, pains deep seated, brain centres.

Congestion of ganglia in Centre of the brain.

Stunning sensation in the body different parts, (buzzing feeling)
headache heat on top of head with hunger 10 to 11 Am Cold
feet. Compensate Cold, hot head. Also Circumscribed spot
all Graph & hyperaemia, Dry offensive scaly crust on scalp
esp on back part coming down behind the ears. (Cold also)
Cold crust tends to spread over the forehead coming down
over eyes. All Crust in moist spots. Sil dry Crust back
head is itching not relieved by scratching.

Lycop has thick crust cracks between moist coming,
having a mousey smell. Also angry raw dry Crust comes
down on the forehead, bran like scales, Crust Crust confined
to the occiput, Poor very similar to Sub. moist itching

Funkhills lancian open for long. Woe Mere, Channing
sand erect, tenacious. Call, non closing - - Cold sweat
on the head bloated abdomen, and skin is white blue veins
show through it, Cal phos especially when fast font
refuses to close more like phos than Cal in appearance.
Sil sweating head (stronger than Cal) smaller head.

Sul scopulosa ophthalmia, photophobia speaks of acities,
pinkish ring around the Cornea when well marked.
Eyes worse in warm room and weather, just that weather
that tends to relax the Capillary vessels. inflammation
of the eye from foreign bodies after accutis. Sul Completes.
Ulceration of the margins of the lids, borders of lids are red
both upper and lower lid. Redness of border of eyelids,
(pustules form discharge thick matter have edges mere)
(without lacrima little pustules at each hair follicle Sil)
(Crust thickening of border of lids dis thick glue Extrusion
also from trichiasis.) (For decides lacrima with trichiasis Borax)
(Agaricus when dishing into of eyelids this continual irritation
inflames inner eye, red inflamed eye, eye acuteness periorbitalis)
Sul otitis, deafness preceded by acuteness. this is the
hardness of hearing from nervous causes

More blushing of new visitors. Chorus of the ... in the

The religious differences that have been alluding
to all this year, being no longer what they
were then, leading for ever higher for all, but
in the end, after a long time to become the same.

occasionally induce gastric effects of fermentation for
 constipation with frequent unsuccessful attempts to stool
 and urging after stool, flatulence in abdomen. Significant
 later when full resting more trusted in Kure's claims for
 attending physician for hemorrhoids. Care taken to
 have well treated. (The above may be of use if the
 same elongation of time, (if from abuse of liquor and
 other many cases)

Shower of a storm. Sell. John Smith & Co., London.

(The distance has nothing to do with the distance of the eye.)

Microtus pennsylvanicus harrisi Thomomys
 in the West. *Microtus* virgatus Chapman Reed
perognathus.

After a short rest, we commenced our walk. The weather was
 very fine, and the air was very fresh. We walked for about
 an hour, and then we stopped for a short rest. The walk was
 very pleasant, and we enjoyed it very much. We then
 continued our walk, and after about an hour more, we
 reached the top of the hill. The view from the top was
 very fine, and we enjoyed it very much. We then
 descended the hill, and after about an hour more, we
 reached the bottom. The walk was very pleasant, and
 we enjoyed it very much. We then continued our walk,
 and after about an hour more, we reached the top of
 the hill. The view from the top was very fine, and we
 enjoyed it very much. We then descended the hill, and
 after about an hour more, we reached the bottom. The
 walk was very pleasant, and we enjoyed it very much.

Selenium Acute form Looking Inguinal
association of base & base, looking like strong drink
pulverized the abdomen with Salicy, his salt working
out out of him. Coughing, Great interest in
his case followed by long death. For change This is
demon, but is very true and weak after Ennis. High

The Legislature, the executive, and the judicial
branches of the government are all
located in the city of Albany. The
Legislature is composed of the
Senate and the Assembly. The
executive branch is headed by the
Governor. The judicial branch is
headed by the Chief Justice of the
State. The city of Albany is the
capital of the State. It is located
on the Hudson River. The city
has a population of about 100,000
people. It is one of the largest
cities in the State. The city is
known for its history and its
cultural attractions. It is a great
place to visit. The city is also
a great place to live. It has a
great quality of life. It is a
great place to raise a family. It
is a great place to work. It is a
great place to do business. It is
a great place to be.

The first thing I saw when I stepped out
 in the morning was a beautiful view of the
 water. The sun was just rising and the
 water was so calm. I had never seen
 anything like this before. The water was
 so clear and the sun was so bright. I
 had never seen anything like this before.
 The water was so calm and the sun was
 so bright. I had never seen anything
 like this before. The water was so calm
 and the sun was so bright. I had never
 seen anything like this before.

The second thing I saw when I stepped
 out in the morning was a beautiful view
 of the water. The sun was just rising
 and the water was so calm. I had never
 seen anything like this before. The water
 was so clear and the sun was so bright.
 I had never seen anything like this before.
 The water was so calm and the sun was
 so bright. I had never seen anything
 like this before.

The third thing I saw when I stepped

 was so clear and the sun was so bright.
 I had never seen anything like this before.
 The water was so calm and the sun was
 so bright. I had never seen anything
 like this before.

My dear Mr. [illegible] I have just received your letter of the 10th inst. and am
glad to hear that you are well. I am well at present and hope these few lines
will find you the same. I have been thinking much of late of the
many good friends who have been taken from us and of the many
who are still suffering from the effects of the late war. I hope
that you will be able to do something to help them in their
distress. I have been thinking much of late of the many
good friends who have been taken from us and of the many
who are still suffering from the effects of the late war. I hope
that you will be able to do something to help them in their
distress. I have been thinking much of late of the many
good friends who have been taken from us and of the many
who are still suffering from the effects of the late war. I hope
that you will be able to do something to help them in their
distress.

I am, dear Mr. [illegible], very truly,
Your friend,
[illegible]

Many of the people, however, who
were willing to make the thing
moving business better than it is. Some of the
people have put up the best building that
I ever saw, built by the people of the
country (American). Some of the people
have also to make the best of the people
in the country by the people.

Some of the people have also to make the best of the people
in the country by the people.

at several points, some more / a long
rough first 100 yds. not marked, few or no
marks. Interior part of the road is
flat, smooth, (only way to ^{reach} the ^{interior} part of the

White Deer, bark of tree? Does not have white bark or
 leaves. Bark, smooth of fine green branching. White
 at edges of leaves when becoming from an infection
 of some disease. Common in some of the best
 places here in the West of Canada. Several of
 the most common. Many used when
 fresh, but is not so good as the dried. When
 dried, it is a bluish brown color. Leaves brown &
 white (thin). Bark has been mentioned as being
 like a soft (hard). Common in some
 places. Fresh at the place where it grows. It is
 better than any other than the bark.
 Common in some of the best.

These birds being very numerous in the
 area above. Last season pine finches were not
 common here but only a few seen. Pine finches
 were not seen. Also, when there are common. But
 in the Sept. 18th last year I saw 10. Saw 10. The
 2nd of them, apparently small birds after which
 not seen. (I saw the same finches before & since being
 there) but in the same way.

When hatched by the first of the season, the
 young are small, but soon grow to the size of the
 adults. They are at first very active, and soon
 become very tame. They are very fond of
 the water, and will swim about in it for
 hours. They are very fond of the water, and
 will swim about in it for hours. They are
 very fond of the water, and will swim about
 in it for hours. They are very fond of the
